**Subject: Security warning on your carrier booking portal**

Hello,

Since about 06:10 this morning every dispatcher on our team gets a browser warning when opening your carrier booking portal (booking.meridian-logistics.example):

"Your connection is not private NET::ERR\_CERT\_DATE\_INVALID"

It happens in Chrome and Edge, on the office network and on phones. We can't book today's pickups for the Dallas and Atlanta DCs until this is fixed, and two other carriers we work with told us they see the same thing.

Please call me when it is resolved: (555) 010-4477.

Dana Ortiz

Dispatch Manager, Bluehaven Freight
